Subject: Public inquiries regarding today's USGCRP reports
Importance: High

All:

I hope you have heard that the draft of NCA4 was released for public comment and NAS review, concurrently with the final [Climate Science Special Report](#) (now referred to as Volume I of NCA4). First let me say thank you for all your efforts in drafting the chapters and responding to the internal comments. It's a substantial effort that falls outside the rest of your activities, and I want to convey my thanks as well as pass along the thanks of USGCRP for all the work you've put into the development of the Assessment and the State of the Carbon Cycle report.

With the release of these reports, you may be contacted by the media or general public for comments, given your roles as authors and contributors. As usual, we don't comment at all on public review drafts, since they are still in draft form.

All inquiries should be referred to USGCRP, unless they are related to EPA's activities as opposed to the contents of the reports. Refer inquiries regarding EPA's response or perspectives to EPA's Office of Public Affairs. Contact information for both is:

US Global Change Research Program: Mike Kuperberg, Executive Director

Ex. 6 Personal Privacy (PP)

Ex. 6 Personal Privacy (PP)

EPA OFFICE OF PUBLIC AFFAIRS: Elizabeth Bowman, 202-564-3293

If you don't immediately recall these contacts, you can refer inquiries to me (and I will refer them on to the above points of contact). My contact info is below.

Thanks again for all your work on these documents.

C.A. (Andy) Miller
Associate Director for Climate
Air, Climate, and Energy Research Program
US EPA Office of Research and Development
Los Angeles, CA
